Public Safety
Vehicles

“ This was our first year exhibiting to build awareness for our solution, I was very impressed with the show organization from start to finish.

We had non-stop traffic at our booth as soon as the show opened, and the attendees were very engaged. This was fantastic for us to demonstrate how our solution works and handout swag to all the attendees. This was a record-breaking show for us in terms of the amount of people we had the chance to connect with. The exhibitor support teams were fantastic and knowledgeable (which is a huge help from a coordination standpoint.) Thank you so much! Can't wait to attend again!”

99% of attendees
visited the exhibit hall

68% spent 2-4 hours
per day in the hall

76% said they are likely to
buy from an exhibitor
